When morning scents in silence bloom,
At noon with tea, soft arts resume.

Each tea ceremony offers a peaceful refuge where the mind can settle and draw calm strength from presence itself. It gently returns us to who we truly are, without needing to be anything else.

A refined expression of East Asian cultural heritage, the tea ceremony opens a thoughtful doorway into a timeless philosophy of harmony and mindful living.

At Jiva Hoa Lư Retreat, with deep reverence and a heartfelt desire to honor and preserve Vietnam’s tea culture, we carefully select only the finest tea leaves sourced from the pristine highlands of Hoàng Su Phì (Hà Giang) and Mộc Châu (Sơn La), where nature’s spirit and mountain air breathe life into every leaf.

Each variety is cultivated entirely naturally, free from chemicals, and hand-processed by the Dao, H'Mông, and Tày communities in Vietnam's highland regions.

The teas are perfected through time-honored techniques passed down through generations. Every sip carries the essence of the mountains and forests.

HOÀNG SU PHÌ

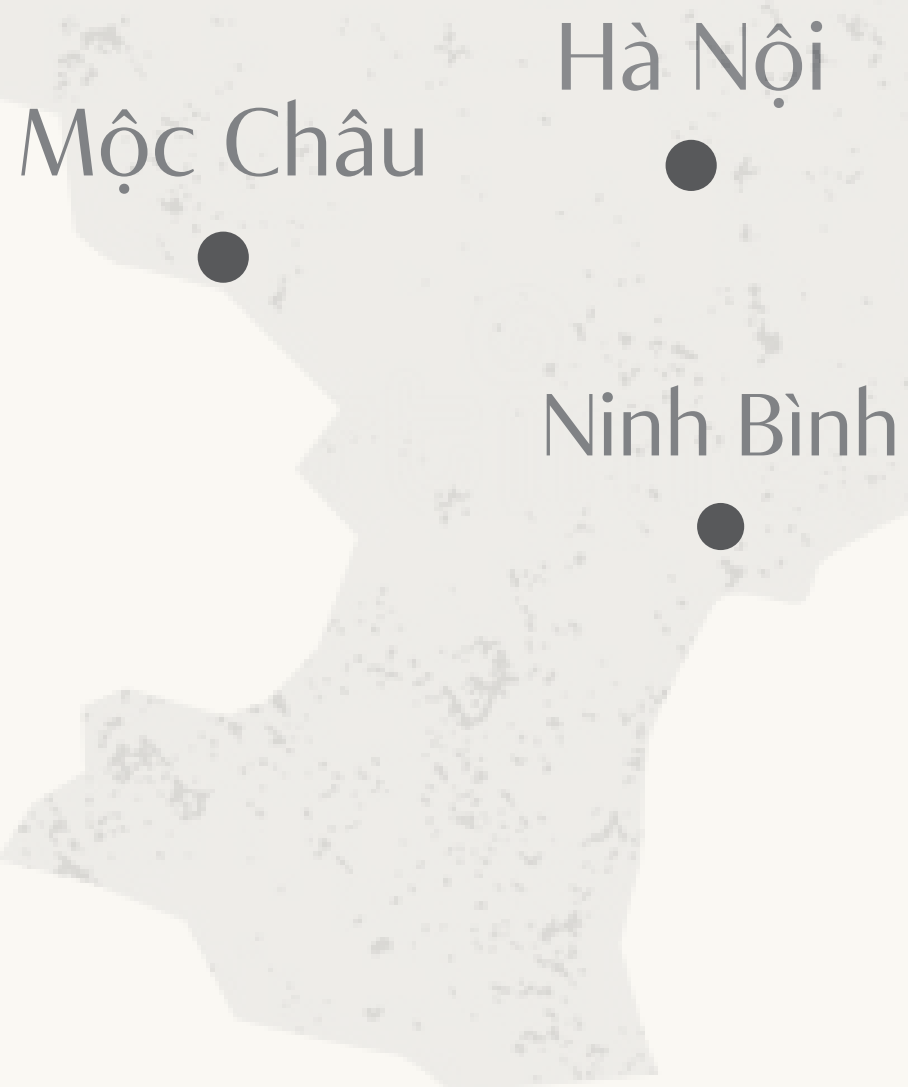

The Legendary Land of Ancient Tea Trees

At an altitude of 1,300-1,500 meters, Hoàng Su Phì is not only a heritage of majestic mountains but also home to a treasure of centuries-old Shan Tuyết tea trees - roots anchored deep into rocky soil, and branches veiled in mist as white as snow.

In the cool mountain fog, tea buds absorb the pure breath of heaven and earth, yielding a naturally sweet, mellow taste and a lingering aroma that tells the story of the land in every cup.

Geographical Indication: Hoàng Su Phì Shan Tuyết Tea has been granted Vietnam’s official Geographical Indication certification - a mark of authenticity, quality, and transparent origin.

MỘC CHÂU

The Ideal Highland for Tea

Blessed with a perfectly balanced climate that provides warm sunshine by day, cool air by night, and thick morning mist, Mộc Châu offers the ideal conditions for tea to flourish. Each bud grows dense and tender, carrying a fresh green aroma and a light, pure sweetness reminiscent of dawn on the hillside.

From this fertile land come the renowned Oolong teas, celebrated for their rich flavor and distinctive, layered fragrance.

Geographical Indication: The tea-growing area is strictly managed, completely free of chemicals, meeting organic standards while preserving the pure essence and spirit of the highlands.
